And **5 microfiber care cloths** and **1 application sponge**.

Our team at Excelsior® carefully researches all ingredients used in the products to ensure that they are effective and yet safe for the environment. All products are made using biodegradable cleaning ingredients as well as use packaging that can be recycled where possible.

Fabric & Microfiber Stain Remover

This specially formulated Stain Remover removes stains with a delicate cleansing action, which wipes off clean, leaving no soap residue.

DIRECTIONS:

Step #1:

- Do not spray directly onto stain. From approximately 6", spray a small amount (do not soak) of the Stain Remover onto a clean sponge.
- Squeeze the sponge several times to create foam.
- Use a gentle dabbing motion apply the foam with the sponge to the stained area.
- Continue with a gentle circular motion until the stain is removed. This should take no more than 30 seconds. Do not soak stain or material.
- Blot out all excess cleaning solution using a clean soft white cloth. Feather out from the stained area as much as possible while performing the blotting action. Always rotate cloth to a clean area while absorbing the excess solution. This will prevent the stain that is absorbed into the clean cloth from being re-applied to the fabric.

Step #2:

- Using a fresh clean white cloth, gently pat the stained area as dry as possible. Pay particular attention to the far edges of the applied cleaning solution on the fabric. This action will blend the newly cleaned area into the dry areas of the fabric or microfiber.
- Allow to dry completely for 24 hours. Gently raise the nap of the fabric back to its original look and feel.

2-IN-1 Leather Care Cleaner & Protector

This fantastic 2-in-1 moisturizing formula features natural Botanical Extracts derived from the sea. The fragrance free lotion preserves the natural essence of the leather and protects against staining.

Read directions entirely before proceeding.

Prior to use, test for colourfastness, on a small, unseen area of the leather. Should signs of change in colour or appearance develop, discontinue use of this product.

This product is specifically formulated for use on all smooth finished leathers using natural “Botanical Extracts” derived from the sea to safely:

- Remove stains
- Condition the furniture as it cleans
- Help retain the original look & feel of your leather

DIRECTIONS:

- Shake well prior to use.
- Apply a generous amount of the product onto the green cloth provided or directly onto the surface to be cleaned.
- Using the green cloth spread the product evenly over the entire surface.
- Wipe off excess residue using a clean soft cloth and buff dry.
- Allow time to properly dry.
- For stubborn stains repeat this procedure a second time.

Bycast Leather & Vinyl Cleaner

A cleaner & conditioner for bycast leather and vinyl, which uses natural botanical & sea conditioning extracts to safely remove stains and condition the furniture as it cleans.

Read directions entirely before proceeding.

Prior to use, test for colourfastness, on a small, unseen area of the bycast leather or vinyl. Should signs of change in colour or appearance develop, discontinue use of this product.

This product is specifically formulated for bycast and vinyl using Natural Botanical & Sea Conditioning Extracts to safely:

- Remove stains
- Condition the furniture as it cleans
- Help retain the original look & feel of your bycast leather or vinyl

DIRECTIONS:

- Shake well prior to use.
- Spray a generous amount of cleaner onto the blue cloth provided or directly onto the surface to be cleaned.
- Using the cloth, spread the product evenly over the entire surface.
- Wipe off excess residue using a clean soft cloth and buff dry.
- For stubborn stains repeat this procedure a second time.

2-in-1 Wood Care Cleaner & Polish

The wood care product is a professional 2-in-1 wood enhancing formula that both cleans and polishes, made with natural avocado oil & has a fresh soft citrus scent. It is suitable for all colours and is recommended for all wood and wood-like finishes.

Read directions entirely before proceeding.

Prior to use, test for colourfastness, on a small, unseen area of wood. Should signs of change in colour or appearance develop, discontinue use of this product. Not suitable for high glass lacquer finishes.

This product is specifically formulated for all wood colours and recommended for all wood and wood like finishes. Made with “natural avocado oils” to safely:

- Clean and polish maintaining maximum brilliance and shine
- Help retain the original showroom look & feel of your wood furniture

DIRECTIONS:

- Spray a small amount of the “Botanical 2 in 1 Cleaner & Polish” onto the orange cloth or directly onto surface of the wood furniture. Do one section at a time.
- Using the orange cloth provided, with a circular motion, spread the product evenly over the area to be treated.
- Using a polishing cloth, buff to a beautiful glowing shine in a circular motion.

HD Glass & Hard Surface Cleaner

Environmentally friendly high definition glass & hard surface cleaner does not contain ingredients which are harmful to the environment.

- Bleach free, Phosphate free, Ammonia free, Alcohol free, Streak free
- Leaves no film or residue, leaves everything not only clean but sparkling
- May be used on a variety of surfaces
- Formulated with environmentally friendly – biodegradable surfactants
- Formulated with many components derived from renewable resources

DIRECTIONS:

- Spray “Excelsior Glass and Hard Surface Cleaner” onto the yellow microfiber cloth provided.
- Wipe the surface entirely until clean.
- Wipe in an end to end motion rather than circularly.
- Using the reverse, dry side of the microfiber cloth; wipe until dry.

WARNING:

- Do not spray directly onto surface
- If smudges remain, re-moisten the microfiber cloth and continue wiping the smudged area until clean.
- Keep out of reach of children and pets.
- Do Not Use On: Marble, Granite or Stone surfaces.
